SOFTWARE ENGINEER

PROFILE

I am pursuing Bachelor of Information Technology (Software Development) Third-Year Student at Belgium Campus iTversity. I am interested in an entry-level position. Skilled in managing projects and collaborating effectively with others to achieve project goals. Motivated to expand technical skills and contribute to a team-oriented environment where we can learn and grow together.

TECHNICAL SKILLS

• SQL_____	Intermediate
• Docker_____	Beginner
• Python_____	Intermediate
• Power BI_____	Advanced
• UI/UX Design_____	Beginner
• Networking_____	Beginner
• Cloud Computing_____	Intermediate
• Git and GitHub_____	Beginner
• C# .NET Framework _____	Advanced
• HTML, CSS and JavaScript_____	Advanced

EDUCATION

BELGIUM CAMPUS ITVERSITY

Bachelor of Information Technology

2022 - Present

MOGALE WA BAGALE TECHNICAL HIGH SCHOOL

National Senior Certificate

2016 – 2020

PROJECTS

- **Fatigue Monitoring Detection System – Final Year Project**
Worked with a team to build a system in Python to help pilots stay alert. The system plays a sound if a pilot's eyes are closed too long, helping to keep them awake.
- **Belgium Campus Website**
As part of a group, created a website for Belgium Campus using HTML, CSS and JavaScript. The website helps new students see available courses, fees, and enrollment information.
- **Student Management System**
Built a system using C# .NET Framework that lets admins manage student information. Admins can add, update, or remove students, but they must first log in.
- **E-commerce Restaurant Platform**
Made a simple website using HTML and CSS where customers can order food online. It lets users browse the menu and place orders.

ACHIEVEMENTS

Web Development from [SoloLearn](#)

Responsive Web Design Certificate from [freeCodeCamp](#)

Introduction to Cybersecurity Certificate from [Cisco Networking Academy](#)

SOFT SKILLS

- **Problem Solving** - Good at finding solutions to problems.
- **Team Management** – Able to lead a team in a positive way and prevent conflicts.
- **Communication** – Clear and open communicator, always available to discuss with team members.
- **Time Management** – Manages time well for projects and class schedules.
- **Computer Literate** – Familiar with basics of computer such as Microsoft Office.
- **Attentive to Detail** – Pay attention to details about a project to make sure everything is accurate.

INTERESTS

I enjoy dancing and coding as ways to be both creative and focused. Karaoke is a fun way for me to relax and socialize with friends. Staying active is important to me, so I regularly go for walks and include exercise in my routine to stay healthy and energized.
